## Know Your Tequila

### Blanco or Silver

This is the traditional tequila that started it all. Clear and transparent, fresh from the still tequila is called Blanco (white or silver) and must be bottled immediately. It has the true bouquet and flavor of the blue agave. It is usually strong and is best in a margarita.

### Reposado or Rested

Blanco that has been kept (or rested) in casks or vats called "pipones" for more than two months and up to one year. The oak barrels give Reposado a mellowed taste, pleasing bouquet, and its pale color. Reposado keeps the blue agave taste and is gentler to the palate.

### Anejo or Aged

Blanco tequila aged for more than a year. The amber color and woody flavor are picked up from the oak, and the oxidation that takes place through the porous wood develops the unique bouquet and taste.

### Reserva or Extra Anejo

This is a special Añejo that certain distillers keep in oak casks for up to 8 years. Reserva enters the big leagues of liquor both in taste and in price. These tequilas must be sipped slowly and enjoyed completely.

El Pinto would like you to choose your favorite alcoholic beverage and drink it responsibly. Our staff is trained to not over serve  
Just a Reminder: El Pinto discourages the drinking of shots, but rather please sip and enjoy one of our fine tequilas.

**El Pinto serves happy hour Monday thru Friday from 4:30 - 6:30. \$1.00 off all drinks served in the lounge.**
