Ability to lift a minimum of 50 lbs

Attendance during all mandatory meetings/trainings provided by the company

Sufficient physical reflexes and personal mobility including but not limited to:

Bending, squatting, twisting, lifting

Stair climbing repeatedly throughout the day

Qualifications:

Ability to use various machinery and practical skills

Able to follow and execute instructions

Responsibilities:

Perform duties including but not limited to:

--collecting raw materials for processing, measuring and packaging

--palletizing finished goods

--sanitation including scrubbing, cleaning & sanitizing equipment at shut down

--inspecting finished product as well as raw materials as they come through the line

--checking the quality of product during production and documenting results at predetermined times in the production process

--Safe and efficient operation of heavy machinery (i.e. forklift, scissor lift, pallet jacks)

--Adherence to GMP's, Food Safety and Food Security processes

--Perform preventative maintenance on heavy machinery through daily checks

--Maintain a clean and well organized work environment inside and outside production facilities.

--Report all food safety issues to Food Safety Administrator or other supervisor
